

Does Google's Nest Cam have a solar panel?

Google released its first battery-powered Nest Cam in 2021, but using the camera solely on battery power tends to take away from the experience. With the addition of a solar panel, however, the Nest Cam gets not only a steady source of power, but also better overall functionality. Wasserstein's Nest Cam Solar Panel is easy to set up.

Which solar panels are compatible with Google Nest?

Wasserstein, Google's leading accessory partner, offers a range of solar panels, each designed specifically for different Google Nest models, including the Google Nest Cam Outdoor/Indoor, Nest Cam (battery), and the Google Nest Doorbell.

Is the Wasserstein solar panel made for Google Nest?

The Wasserstein Solar Panel features the Made for Google Nest label, indicating its compatibility and compliance with Google Nest products. This is a mark of assurance, demonstrating that the solar panel meets Google's stringent standards for quality, performance, and safety.

Why should I install a solar panel on my nest camera?

One of the primary benefits of installing a Nest Cam Solar Panel is the assurance of an uninterrupted power supply for your Nest Camera. By harnessing the sun's energy, this solar panel can keep your camera functioning even during power outages or in remote locations without access to electricity.

Does Google Nest work with a battery-powered camera?

Compatibility: Works seamlessly with both wired and battery-powered Google Nest Cams. Solar power: Equipped with high-efficiency solar cells, it efficiently converts sunlight into usable energy, continuously powering your camera under sufficient direct sunlight.
