

What is a solar energy grant?

A solar energy grant is funding given to promote renewable energy that does not have to be paid back. It is designed to help qualifying groups such as low-income or rural homeowners, farms, Native American tribes, schools, and nonprofit organizations afford the initial cost of harnessing solar energy.

Who can qualify for solar energy grants?

Grants are funding given to promote renewable energy that does not have to be paid back. Qualifying groups include low-income or rural homeowners, farms, Native American tribes, schools, and nonprofit organizations. Harnessing solar energy - while having numerous long-term benefits - can be an expensive undertaking.
