

Who is great power?

Great Power is a world-class battery manufacturer that was established in 2001 and listed on the stock market in 2015 in China (stock code: 300438). The company has over 20 years of experience specializing in lithium-ion battery manufacturing, research, and development.

What kind of batteries does great power make?

The company's primary products are lithium-ion batteries, which are utilized in various markets such as energy storage, consumer electronics, and EV. As a pioneer in manufacturing stationary energy storage system (ESS) batteries, Great Power introduced its first-generation ESS in 2011.

What products does great power offer?

The company offers a comprehensive range of battery products including cells, packs, racks, cabinets, containers, and project integration that meet requirements of all markets, such as residential, C&I and utility-scale. Great Power's products show excellent safety performance, long cycle life and high energy efficiency.

What is great power energy storage?

Great Power's energy storage products are widely applied in utility-scale, residential, commercial and industrial. Peak shaving: charge when the load is low and discharge when the load is high. Renewable Integration: renewable energy generation is characterized by its randomness, intermittency and fluctuation.

What makes a good battery?

Each battery has a large capacity and can be used for a long time. These batteries use a lean design and are sealed and maintenance-free. The batteries use thick tin plates made of high-tin alloy and contain AGM separators, providing superb performance. helping to minimize replacement cost and reduce total cost of ownership.

Why should you choose GPB Lithium Power Sport batteries?

GPB Lithium Power Sport Batteries offers a complete line of batteries to meet all of your power sports requirements.

- o Good charging acceptance and vibration resistant performance.
- o Advanced calcium lead alloy technology, maintenance-free design.
- o The 100% sealed battery is trouble-free and requires zero maintenance throughout its lifespan.
