

Who is great power?

Great Power is a world-class battery manufacturer that was established in 2001 and listed on the stock market in 2015 in China (stock code: 300438). The company has over 20 years of experience specializing in lithium-ion battery manufacturing, research, and development.

Why should you choose GPB Lithium Power Sport batteries?

GPB Lithium Power Sport Batteries offers a complete line of batteries to meet all of your power sports requirements.

- o Good charging acceptance and vibration resistant performance.
- o Advanced calcium lead alloy technology, maintenance-free design.
- o The 100% sealed battery is trouble-free and requires zero maintenance throughout its lifespan.

What makes a good battery?

Each battery has a large capacity and can be used for a long time. These batteries use a lean design and are sealed and maintenance-free. The batteries use thick tin plates made of high-tin alloy and contain AGM separators, providing superb performance, helping to minimize replacement cost and reduce total cost of ownership.

What makes great power a great brand?

In this digital era, Great Power is dedicated to improving the life quality of consumers by delivering high-quality batteries that power a seamless and connected lifestyle. Drawing on more than two decades of expertise in research, development, and manufacturing of consumer batteries, Great Power stands as a leader in the industry.

What are GPB hybrid lithium automotive starting batteries?

GPB Hybrid Lithium Automotive Starting Batteries are designed with dual-purpose start-stop starting function and deep-cycle lithium solution that can withstand high-heat environments due to their heat-resistant technology. Build with premium LiFePO₄ pouch cells which used by Mercedes and BMW, it can output up to 1800CCA depending on the product.

What is a GPG battery?

The GPG series products are manufactured with nano silica gel technology, one of the two valve-regulated battery production technologies used in the industry, and have porous PVC separators and colloidal electrolyte inside. This series can work under high and low temperature, supports cyclic deep discharge, and has a long service life.

is a lithium-ion battery classified by its size, which is slightly larger than a AA battery. The advent of the 18650 brought along a new age of li-ion power which continues today, ...
