

Does Green Day power install solar panels?

Green Day Power installed my solar panels and solar batteries at different times. In both cases they explained everything first and did a careful job. They also gave me an excellent price. When I had a problem months after battery installation, they came very quickly and fixed the problem.

How good is Green Day power?

They are very very punctual and very responsive. Process is very transparent and we are happy that we went with green day power. We installed our system in September and overall we are very happy with the services Jacob and Green Day Power provided.

Can Green Day power be done for an additional cost?

When I pushed Green Day Power finally said that it could get done for an additional cost. If you are in the same boat as I was and you can't get your project manager on the phone then call the main office (for Green Day Power) and ask for sales.

Does Green Day Solar install inverter in garage?

The installation guys ran off and no reply from anyone from Green day solar. Secondly, I asked those guys install the inverter in the garage, They said as per the design it's outside. we need extra money to install inside. If you like surprises go Greenday power.

Does Green Day power subcontract?

For green day company, all the people who came for installation were company employees, so they do not subcontract. All the employees were very professional and knowledgeable on what they were doing. They are very very punctual and very responsive. Process is very transparent and we are happy that we went with green day power.

Does Green Day power return phone calls if system goes offline?

They do not return phone calls or emails, even when the system has gone offline. Our system has been installed for 16 months and has worked for 8 WEEKS!! (not a typo) We average \$430 in sdge bills each month, with Green Day Power solar panels and a Generac back up battery.
