

What is a Growatt inverter battery?

A Growatt inverter battery is a 6 kW capacity battery designed to be a perfect addition to any solar installation using Growatt inverters. It comes with several benefits, making it an appealing choice for those looking to upgrade their homes' solar PV with an energy storage system.

Where are Growatt inverters manufactured?

Growatt inverters are manufactured in China. Quickly establishing themselves as one of the world's most popular inverters, first opening their doors in 2010, Growatt has rapidly proven their quality and expanded their operations worldwide.

What makes Growatt inverters easy to use?

Growatt inverters are easy to use for both the consumer and the installer, with OLED displays, and touch key interfaces. They enjoy very high levels of efficiency, in the upper echelons of what any inverter on the market today can produce.

How much power does a Growatt tracker need?

Max. recommended PV power (for module STC) Max. DC voltage Max. AC apparent power Only the latest version with max. input current 13.5A per MPP tracker, for details please contact Growatt. The AC voltage and frequency range may vary depending on specific country grid standard. All specifications are subject to change without notice.

Where is Growatt USA located?

Max. Charging Current GROWATT USA INC. Address: 9227 Reseda Blvd. #435 Northridge, CA 91324.

Where is ginverter located?
