

Does Growatt still make solar inverters?

We are well into 2019 and Growatt is still making solar inverters and are still around to replace them. The best thing about the Growatt inverter is that we can install 6.6kW of solar panels on them! Growatt is now also one of the biggest suppliers of Hybrid solar inverters in Australia.

How many solar panels can a Growatt inverter install?

The best thing about the Growatt inverter is that we can install 6.6kW of solar panels on them! Growatt is now also one of the biggest suppliers of Hybrid solar inverters in Australia. We are excited to include Growatt inverters in our Brisbane solar system packages - see our solar system prices [here](#).

Does Growatt sell off-grid solar inverters in Australia?

Growatt has just released a new range of off-grid solar inverters in Australia. As we have nothing to do with off-grid solar inverters, we don't sell them or know anything about them, but they have released them now in QLD. They even approached us to wholesale them. We only do on-grid stuff at this stage.

Who are Growatt inverters?

Growatt Inverters in Queensland: features and installation services. Quality Components. 23 Years Experience. Proven Performance. Founded by a group of global PV industry pioneers headed by David Ding in 2011, Growatt offers a wide range of good quality, reliable solar inverters aiming to build a greener future.

Where is Growatt based?

Growatt entered the Australian market soon after their inception and have established a local office to support their customers. Their office is based in Homebush, Sydney. How much do Growatt inverters cost? The solar inverter is what turns the solar energy generated by solar panels into the useable electricity that powers households.

Are Growatt inverters CEC approved?

Most Growatt inverters have Clean Energy Council (CEC) approval for Australia's Small-scale Renewable Energy Scheme, the country's home solar rebate program. However, it's crucial to note that not all kW sizes of certain inverters receive approval. The CEC-approved Growatt inverters include:
