

How to monitor a Growatt inverter and datalogger?

To monitor your Growatt inverter and datalogger, you need a monitoring device that connects them to the internet. This can be a Growatt Wi-Fi dongle, a Growatt Shine LAN-X dongle, or a Growatt Shine Link-X box. Additionally, you need a smartphone running on iOS or Android to use the ShinePhone app, which is available for free on the App Store or Google Play Store.

What types of inverters does the Growatt app support?

The ShinePhone app supports all Growatt inverters, including grid-tie, off-grid, hybrid, and storage inverters. To use the app, you'll need a monitoring device that connects your inverter or datalogger to the internet, such as a Growatt Wi-Fi dongle, a Growatt Shine LAN-X dongle, or a Growatt Shine Link-X box.

What devices does the Growatt monitoring platform collect data from?

The Growatt monitoring platform collects and displays the data from Growatt inverters and monitoring devices. It is designed for Growatt customers who want to monitor their inverters on their smartphones.

Does Growatt monitor work with solarfox?

The system is therefore compatible with any photovoltaic system with Growatt inverters; the only requirement is an Internet connection via LAN or WLAN. This has the advantage that you do not need any direct cabling between the Growatt Monitoring and the Solarfox display.

What can I manage on my Growatt inverter account?

On your Growatt inverter account, you can manage multiple devices such as inverters, batteries, dataloggers, etc. You can also share your devices with other users or transfer them to other accounts.

How do Growatt inverters work?

This gives you maximum flexibility to select any location for the solar display installation. The photovoltaic system generates direct current. The Growatt inverter converts solar energy into alternating current. The yielded information is transmitted directly from the Growatt inverters to the Growatt monitoring portal on the Internet.

Advanced solar monitoring for Growatt inverters Modern, real-time solar monitoring and control via web, Android and iPhone app. Shop View guides. Real-time analytics. Per second metric accuracy. Real-time metrics makes all ...

The yielded information is transmitted directly from the Growatt inverters to the Growatt monitoring portal on the Internet. After a Solarfox online account has been created, ...
