

What is Gulf Power's first solar farm?

Gulf Power's first solely owned and operated solar farm opened last year in Jackson County as the Blue Indigo Solar Energy Center. The company is planning an additional solar farm in northern Escambia County called the First City Solar Energy Center as well as one in Santa Rosa County called the Blackwater River Solar Energy Center.

Is Gulf Power Building a solar farm in Escambia County?

Gulf Power officials announced Tuesday that the company was beginning construction on its first owned and operated solar farm in Escambia County. The power company said construction is underway on the new Cotton Creek Solar Energy Center in northern Escambia County.

Where is Gulf Power's new solar farm?

According to a Gulf Power press release, the 639-acre solar farm is located off of Bogia Road just west of U.S. 29 and will be completed by the end of the year. The new facility is part of several new solar farms Gulf Power is building across the Florida Panhandle, in addition to the four solar farms that are already up and running.

Who owns the solar farm at Naval Air Station Pensacola?

Three of the four solar farms are run by a private company on military bases, including a 366-acre solar farm at Naval Air Station Pensacola's Saufley Field. Gulf Power spokeswoman Kimberly Blair said unlike the solar plant at Saufley Field, the Cotton Creek Solar Energy Center will be built and operated solely by Gulf Power.
