

# How to get more computing power nine sols

How does computing power work in nine sols?

The fast travel mechanic in Nine Sols can make your run much less stressful, so knowing how it functions is important. In Nine Sols, Computing Power is relative to the Jade that you collect during your adventure. When you equip a Jade, it will consume a specific amount of Computing Power, determined by how many slots the Jade takes up.

What mechanics should you consider when playing nine sols?

Game Rant One of the many mechanics to consider when playing Nine Sols is Computing Power and Jades. With knowledge of these two parts of the game and how they function, you will be able to take your gameplay to new heights and give yourself a boost for the next obstacle or challenge you need to overcome for progression.

How much computing power does a jade need?

Computing power is the resource required to equip Jades. Jades require between 1 and 3 computing power, with the more powerful Jades typically taking more computing power. Computing power starts at 2 and can be increased to a maximum of 10 by collecting Computing Units. Attaching a talisman will temporarily immobilize that enemy.

How do I increase my computing power?

For players looking to improve their Computing Power so they can equip more Jades in general or a different combination of Jades you own - you are in luck. Computing Power can be increased by purchasing Computing Units from various merchants you encounter along your adventure, such as Chiyou in Central Transport Hub.

What is a tao-90 computing unit?

The pattern on the face of the Computing Unit is composed of the eight symbols of the bagua, ordered in Fuxi's 'Earlier Heaven' arrangement. Computing Units are collectibles that increase the computing power of the Jade System by 1. Each additional TAO-90 computing unit increases the Jade System's computing power by one.

Does nine sols have a safe hub?

A Soulslike isn't complete without a safe hub, and accordingly, Nine Sols features its own sanctuary known as the Four Seasons Pavilion. Yi can visit this area to seek respite from the brutal world of New Kunlun and interact with various NPCs that gather there, including a robot called Shanhai 9000.
