

Should you buy CATL stock?

CATL is a major Chinese battery manufacturer, particularly in the electric vehicle (EV) sector. Consider buying its stock due to its strong presence in the growing EV market, innovative battery technology, global reach, government support, and partnerships with leading automakers. How to buy CATL stock?

Is investing in CATL risky?

Every investment involves risk, and investing in CATL is no exception. While many US investors perceive all Chinese stocks as high-risk, CATL is less vulnerable to influences like US-China tension and potential sanctions or war over Taiwan compared to many other stocks.

How to buy CATL stock in Shenzhen?

The easiest way to get exposure to CATL is to buy shares of ETFs that hold CATL in their portfolio, such as VanEck ChiNext ETF (NYSE: CNXT), where CATL makes up around 18%. Alternatively, since CATL is listed on the Shenzhen Stock Exchange (SZSE), you can buy CATL stock directly from brokers that offer exposure to SZSE. Where to buy CATL stock?

What types of funds might hold CATL?

Two types of funds are likely to hold CATL: funds focused on battery or lithium stocks and funds focused on China tech stocks. Not all funds in these categories will hold CATL. If you really want to buy CATL, this is a downside; if you want diversified exposure that includes similar companies, it's an upside.

Is CATL a good investment for EV growth?

Contemporary Amperex Technologies (CATL) is the world's dominant manufacturer of batteries for electric vehicles (EVs). Given the increasing saturation of the EV market, many investors are looking at CATL as another way to ride the EV wave.
