

Where are Huawei inverters used?

Huawei began manufacturing phone switches and has expanded to telecommunications, mobile phones, consumer electronics, and networking equipment. Their products are used in more than 170 countries, by over three billion people. Huawei inverters are used at the world's largest single PV plant, tracking system PV plant and rooftop-mounted PV plant.

What is the Huawei SUN2000L 3.68KTL-L1?

The Huawei SUN2000L 3.68KTL-L1 is an advanced solar inverter from Huawei. It is part of Huawei's solution for C&I and residential customers, based on the 'Optimal Electricity Cost and Active Safety' concept. Huawei has helped to power millions of residents and hundreds of industries globally by improving the utilization of solar power with high efficiency inverter topology (Max. Efficiency 98.4%).

Why should you choose a Huawei inverter?

HUAWEI inverters are durable, premium-quality technological marvels. They are engineered with high-quality components and offer optimum connectivity, enabling solar energy plants to work efficiently for many decades. Huawei products are constantly improved and subject to rapid technological advances.

What is the Huawei FusionSolar app?

The Huawei FusionSolar app is a management tool for smart PV plants. It enables you to manage your plant anytime and anywhere, supports wizard-based commissioning and site deployment, and enables mobile O&M. The app is secure and reliable.
