

How to connect a Huawei solar inverter to WiFi?

The steps to connect a Huawei solar inverter to Wi-Fi are: To initiate the process,download the FusionSolar appfrom either the Google Play or Apple App stores. For every succeeding step,you will require your solar inverter and a WiFi capable device with the FusionHome app installed. Log into your inverter through the FusionSolar app.

Which Huawei inverters are compatible with fusionhome?

The following guide is applicable for all Huawei WIFI-enabled inverters,including the SUN2000 and SUN2000L and SUN2000L Hybrid models. Please download the FusionHome app (this is a separate app from FusionSolar and NetEco) from either Google Play or Apple App Store.

Does fusion solar work with a Huawei inverter?

A: The inverter will still send it's data to the Huawei cloud, and you will still be able to see live statistics from your installation in the FusionSolar App. However, if you (or your installer) need to use the 'Device commissioning' feature of the app, you will need to disable this integration.

How do I integrate my Huawei solar inverter with ha energy?

Cannot retrieve latest commit at this time. This integration splits out the various values that are fetched from your Huawei Solar inverter into separate HomeAssistant sensors. These are properly configured to allow immediate integration into the HA Energy view. Or: Go to Configuration -> Integrations and click the +Add Integration.

Does Huawei inverter support Modbus-TCP?

Starting from firmware updates released in December 2021,Huawei has closedthe Modbus-TCP interface on the network to which the inverter connects. ie. If the inverter is connected to your home network on 192.168.1.11,it will no longer be possible to connect on that IP.

How do I connect a goodwe solar inverter to WiFi?

The steps to connect a GoodWe solar inverter to Wi-Fi are: Download and install the SEMS portal app,and ensure that your solar inverter or Ez Logger Pro (WiFi Version),as well as your modem are turned on. Launch the app and select 'WiFi Configuration' at the login page. Alternatively,you can select the WiFi icon at the homepage.

Ethernet networking, which enables the SmartLogger to connect to the inverters, Smart Power Control System (Smart PCS), Smart String ESSs, MBUS CCO, and STSs. MBUS networking, ...

Product Model

HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions

1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity

215KWH/115KWH

Battery Cooling Method

Air Cooled/Liquid Cooled
