

Are Huawei solar inverters still sold in Australia?

In 2024 Huawei solar inverters and batteries sold in Australia will split into two brands. Inverters above 40kW will remain as Huawei branded products. Inverters 40kW or less, and batteries are now re-branded as 'iStore'. Huawei will remain in Australia to supply and service existing and new major contracts for solar farms/industrial.

Where can I buy a Huawei inverter?

Compatible products can be bought from iStore. Items no longer being sold here under the Huawei brand include the Smart Energy Centre or SUN2000 solar inverters and the Luna2000 home battery. If you want a Huawei inverter or battery, you can get one that is fully compatible with them from iStore.

Is Huawei solar inverter good?

Huawei solar inverters come in Single phase, Three phase and Hybrid inverters with a standard warranty of 5 years. Huawei solar inverters are dynamic and affordable and considered to be a good inverter for residential solar power systems. Huawei solar inverter has been rated 4.7 Stars out of 5 by independent review platform in Australia.

How much does a solar inverter cost in Perth?

Also, an inverter installation typically costs between \$200 and \$300. Which brand of solar system inverter in Perth is the best? Some of the best brands that provide top solar inverters in Perth are Fronius, SMA, Solar Edge, Huawei, Sungrow, etc. Fritts Solar always delivers solar inverters from trusted brands to ensure quality.

Do Huawei solar inverters have warranty?

That's because Huawei make inverters for the Australian market for iStore; and inverter data is securely stored locally in Australia, not in China. As I consider iStore to be a reliable company, you shouldn't have any issues with the warranties for these new products. Huawei solar inverters have 10 year warranties.

Who makes the best solar inverter in Australia?

With more than 38 years' experience, SMA is the world's longest servicing solar inverter manufacturer. They are considered the top European inverter manufacturer brand by Australians. There are over 750,000 SMA inverters installed in Australia, producing more than 35% of all solar electricity in the country.
