

Who manufactures Deye solar inverters?

Deye is a leading manufacturer of solar inverters, batteries, air conditioners, and dehumidifiers. Our innovative products include single and three phase string inverters, hybrid inverters, low and high voltage solar storage batteries, hybrid AC/DC and DC48V solar air conditioners, home and industrial dehumidifiers.

What is a Deye microinverter?

Unlike traditional string inverters, microinverters are attached to individual or small groups of solar panels, enabling unprecedented performance optimization, enhanced monitoring capabilities, and improved system reliability. Deye microinverters achieve maximum efficiencies up to 96.5% with MPPT efficiency exceeding 99%.

What is the power range of Deye's string inverter?

Deye's three-phase on-grid string inverter has a power range of 4kW to 110kW with 230/400Vac. It can connect to the utility grid directly without a transformer.

What does Ningbo Deye Inverter specialize in?

Ningbo Deye Inverter Technology Co., Ltd is dedicated to providing complete photovoltaic power system solutions, including residential and commercial power plants solutions. Factory cover over 15,000m²; and complete production and testing equipment, Deye has become a major player in the global solar inverter market.

Why should you choose Deye solar inverter?

Leverage Deye's expertise in solar inverter technology to power your sustainable energy future. Our commitment to innovation, quality, and customer satisfaction ensures that you receive the most efficient and reliable solar inverter solutions available in the market today.

Does Deye offer a warranty on solar inverters?

Deye provides a 10-year guarantee for its solar inverters. Deye is an innovator and a leader in the field of advanced inverter technologies focusing on hybrid solar inverters, on-grid inverters, and special microinverters. Deye hybrid inverters support the parallel connection of up to 16 solar inverters, both on-grid, and off-grid.
