

What is a goodwe em series bi-directional energy storage inverter?

The GoodWe EM series bi-directional energy storage inverter can be used for on-grid PV systems, with the ability to control the flow of energy intelligently. During the day, the PV array generates electricity which can be provided either to the loads, fed into the grid or charge the battery, depending on the economics and set-up.

How does the goodwe gw5048-em inverter work?

The GoodWe GW5048-EM inverter can function as a charger inverter, charging the batteries with the power grid. In the image on the right, the simple operation diagram of the GoodWe GW5048-EM similar to that of the SBP series is shown.

Does goodwe solar inverter work with lithium batteries?

Goodwe Hybrid Inverter GW5048-EM of 5000w 48V, of the GoodWe EM series, can work in systems of connection to on grid and off grid systems. The Goodwe solar inverter is compatible with lead acid batteries and 48V lithium batteries. compatible with LG Chem RESU 48V lithium batteries. Ideal to boost self-consumption in residential homes.

Which solar batteries are compatible with the goodwe gw5048-em 5000W?

The GoodWe GW5048-EM 5000W and 48V is compatible with most solar batteries with 48V voltage, including lead acid batteries and lithium batteries.

What type of inverter does goodwe offer?

Goodwe's ET range of 3 phase inverters are currently: 5kW, 6kW, 8kW, 10kW, currently on Generation 1. plus 15kW, 20kW and 25kW and 30kW. The 15-30kW models are just arrived and Generation 2. We are only allowed to install the 15kW model in WA with our 5kW per phase Western Power rule.

What is the warranty on goodwe em inverters?

GoodWe EM inverters guarantee is for 5 years, starting from start-up. Accessories, including WIFI and EzMeter with a 2-year warranty. From the date of manufacture of GOODWE.
