

What is the best iPhone car charger?

The joyroom wireless charger provides these in spades. It's an exceptional car mount for iPhones, and one of the best iPhone car chargers. It supports Qi charging on all the latest iPhones, providing a standard 7.5W charging option. It keeps the phone secure through an automatic clamping system engaged with the appropriate contact with the phone.

Which qi2 car charger works with iPhone?

The ESR Qi2 15W MagSafe car mount charger represents one of the best options on the market. This charger works with iPhones with MagSafe (12 series or later). The charging head is compact but powerful. Note that you will need a car charger capable of outputting at least 9V/2.25A to get the full 15W output from this Qi2 wireless charger.

Why should I buy a car charger for my iPhone?

A car charger ensures your iPhone is fully charged when you can't access power plugs. While a few cars have built-in chargers, many don't. However, searching for the right car charger can be overwhelming. We've compiled a list of the best car chargers you can buy for your iPhone and keep your iPhone charged in your car.

- 1.

Does Apple make a car charger?

While it's not a first-party product (Apple doesn't make DC car chargers), it's one that you can buy directly from the Apple site, and that means it's a reliable option for charging your iPhone. For \$29.95, you can pick up the Mophie dual car charger that comes equipped with a USB-C and USB-A charging port.

Does Apple make a car charger for iPhone 15?

Apple doesn't manufacture any car chargers, but it does sell Mophie's car chargers on its official website, meaning you don't have to worry about its compatibility with iPhone 15. This car charger won't take much space either when plugged into a 12V auxiliary port. It has two USB-C ports, and one of them supports PD charging.

Which iPhone car charger has a long cable?

If you want a super long cable that won't crack or tangle, go with the Syncwire car charger. It has a four-foot coiled Lightning cable and a USB port. The iPhone car charger that makes it to the top of our list is the Anker PowerDrive 2.
