

Is Solarpower a good plant?

Series features heart and cut-shaped leaf varieties! Densely branched SolarPower holds its shape and color in the landscape and mixed combos all Summer long, and it works well with companion plants. Medium vigor and a well-branched habit. Most efficient in production. SolarPower's tidy habit allows for more plants per rack at retail.

Is Ipomoea a plant?

Ipomoea is a genus of about 500 plants belonging to the family Convolvulaceae. These plants are mostly warm-climate trees, shrubs, and herbaceous plants. Several species are known as morning glories and are cultivated as ornamental plants.

What is a black heart Ipomoea?

A small-pot solution for northern regions. Offers an excellent mounded habit with a very clean, true heart-shaped leaf. The deep black coloration stays true all Summer long, and in Spring conditions, early growth is deep purple. 'Balsolabart' SolarPower(TM) Black Heart Ipomoea - Brightly colored leaves are great for mixed containers and garden beds.
