

What happened between Horizon solar power & solar spectrum?

In August 2017, Horizon Solar Power and Solar Spectrum merged, maintaining their individual brands as part of the larger Sungevity family. The merger expanded Horizon Solar Power's sales strategies and helped align both companies to better serve their customers.

Is Horizon solar power a good company?

Note: Customers under a power purchase agreement are responsible for installing and maintaining their own system. Horizon Solar Power is accredited by the BBB and holds an A- rating from the company. Horizon Solar Power provides customers with excellent customer service, a variety of purchasing options, and a lucrative referral program.

When did Horizon Solar Power merge with Solar Spectrum?

Despite its position as a leading provider of residential solar systems, Horizon Solar Power faced financial difficulties and underwent a merger with Solar Spectrum in 2017.

Does horizon solar power install solar panels?

Horizon Solar Power provides customized solar panel installation for residential and commercial customers and is a part of the process from start to finish. To begin your solar project, Horizon Solar conducts a free in-home consultation that analyzes your home's energy needs and infrastructure to determine if your home is compatible with solar.

How long does horizon solar power last?

Horizon Solar Power follows a similar installation process when working with commercial clients and helps maximize their savings by designing a system unique to each business. Horizon guarantees the performance of its commercial systems for 20 years. What Are the Purchasing Options at Horizon Solar Power?

What financing options does horizon solar power offer?

Horizon Solar Power offers customers the choice of four purchasing options to help finance their solar energy system. Customers who choose to purchase their system outright assume full responsibility of the system but don't owe a monthly payment to Horizon. Solar loan customers owe a set monthly payment to assume full ownership of the system.
