

Are solar panels worth it in Michigan?

Although Michiganders use less power than most U.S. residents, the electricity rates average around 19.32 cents per kilowatt-hour, which is well above the national average. As such, solar panels are more valuable in Michigan than in most states because the cost they offset is higher per kWh.

How much does solar cost in Michigan?

Take control of your energy costs with solar power. Average solar panel installation costs range from \$11,025 to \$31,500 in Michigan. How much you actually pay depends on the size of your system, what incentives you're eligible for and other factors.

Do solar panels pay off in Michigan?

Based on feedback from dozens of solar customers in Michigan, the general consensus is that solar panel investments pay off over time. On average, Michigan homeowners with solar panels avoid \$53,663 in total utility costs over 25 years. The average solar panel installation costs \$3.15 per watt in Michigan.

Is solar a good investment in Michigan?

The energy rates are much higher in Michigan than in most other states -- an average of 19.32 cents per kWh as opposed to the national average of 16.79 kWh -- so solar will likely be a good investment for your home even if you use less power than most homeowners in your area. You can check your average consumption on your past energy bills.

Why should you go solar in Michigan?

Going solar helps you avoid future rate spikes and save more in the long run. The state and federal governments provide several incentives to entice homeowners in Michigan to convert to renewable energy. One of the most appealing tax incentives is the federal solar tax credit, commonly called the ITC.

Are solar panels tax deductible in Michigan?

The federal solar investment tax credit is usually the most significant financial incentive for homeowners buying solar panels. It is not a rebate or a refund but goes toward what you owe on federal income taxes. In Michigan, you can lease a system or enter a power purchase agreement with lower upfront costs.
