

Is electric vehicle charging free?

Electric vehicle charging is not free, but some stations and programs let you top up at no cost. Here's how to save some cash when powering up your EV. With US gas prices topping \$5 per gallon, the option to charge up for free is a satisfying perk of owning an electric vehicle.

How can I find free EV charging stations?

Our favorite and possibly the simplest option to find free EV charging stations is Plugshare. It has a filter letting you remove all chargers that require payment, and there's a map dedicated to finding free EV charging stations.

Is there an app to find free EV chargers?

There are countless apps out there designed to help you find EV charging stations. Our favorite, and possibly the simplest option, is Plugshare. The trick is to find the ones that let you filter by price, and have free or \$0 as some sort of option.

What cars come with free charging?

Volkswagen ID.4: Comes with 30 minutes of free level 3/DC fast charging, and 60 minutes of level 2 charging at Electrify America stations. Ford F150 Lightning: Comes with 250kWh of power at level 3/DC fast charging at Electrify America stations. Chevy Bolt: Free home installation of a level 2 charger with your purchase of a 2022 model.

Where can I find free chargers?

The easiest way to find them is on the PlugShare app, which includes a filter for free chargers. Much of the app's content is crowdsourced by real drivers, who "check in" at each station and upload the latest information about it, including if it's still free, how many minutes of charging you get, and at what level/speed.

Do electric cars come with free charging perks?

Some of the best electric cars do come bundled with free charging perks. For instance, the Genesis GV60, which just went on sale in the U.S., comes with free charging on the Electrify America network. But if you had your heart set on buying an EV in the near future, just remember this.
