

What is a Jackery solar generator?

A Jackery solar generator is a portable power station that captures and stores solar energy using solar panels. It emits no toxic gases and operates cleanly, causing no environmental harm. Jackery Solar Generators efficiently convert sunlight into electricity, offering a reliable power solution for various applications.

How long does a solar generator from Jackery last?

Jackery's solar generators are designed to last for 10+ years, even with daily use. They provide continuous power for almost all appliances, ensuring you can keep your WiFi on, power your refrigerator, and charge CPAP for a peaceful sleep.

Are Jackery solar generators sustainable?

By introducing its solar generators to the great outdoors, Jackery fulfills the power needs of every nature-lover, inspiring them to explore further for more sustainable experiences. This product has sustainability features recognized by trusted certifications. Carbon emissions from the lifecycle of this product were measured, reduced, and offset.

What is a Jackery solar power station?

Jackery solar power stations are built with an intelligent BMS (Battery Management System) to protect the devices from short circuits, under and overvoltage, and temperature extremes. That is Jackery.

Who is Jackery solar?

Jackery, founded in California in 2012 with a vision to offer green energy to everyone and everywhere, is a pioneer of the solar generator industry and a global top-selling brand- recognized by over 3 million users and 200 authorized media & organizations worldwide.

What type of solar cells do Jackery solar panels use?

Jackery Solar Generators have a quick solar charging capability to charge the power stations in a few hours. The solar panels feature monocrystalline silicon solar cells and have an industry-leading efficiency rate of 25% to support quick charging.
