

Is Kehua a good energy storage inverter supplier?

Kehua has become the No.5 energy storage inverter supplier globally, ranking among the top players in the market. This achievement is a testament to Kehua's rapid growth and success in the renewable energy industry.

Can my Kehua inverter be monitored via WiFi?

With WiFi Monitoring installed to your Kehua Inverter, the powerful SolarMAN platform will provide you with update information about your system performance and your expected return from electricity exported to the grid with Smart Meter installed*. *Feature coming in 2019

Who is Kehua digital energy?

3. Measured data Kehua Digital Energy, with 36 years of power electronics expertise, offers comprehensive solutions in photovoltaics, energy storage, and microgrids. With installations exceeding 46GW in PV and 15.2GW/8.2GWh in energy storage globally, Kehua is a Tier 1 clean energy provider committed to promoting a zero-carbon future.

Where does Kehua rank in the global PV inverter market?

According to IHS Markit's latest PV inverter market tracker report, Kehua ranked 9th among global suppliers in 2020. Global inverter shipments increased 35% to reach a total of over 170 GW in 2020, with the top three markets, China, the United States and India, accounting for over 50% of those shipments.

What power range does Kehua's inverter portfolio cover?

Kehua's product portfolio incorporates string, central and central-distributed inverters, covering a power range from 1kW-6.8MW.

How do I report a faulty Kehua inverter?

To report a faulty Kehua inverter during the warranty period, please provide a brief error description and send your warranty card to Powerark Solar. If available, include pictures of damaged components to help process the warranty claim.
