

Is Legion Solar worth it?

Of course there will be a cost to mounting the panels, on the roof or somewhere else. In the event of a grid failure you will not get any power from the Legion Solar panels. Still, if it works as described it may be useful for some people. It's an interesting concept... certainly a much better solution if someone wants a smaller system.

How does Legion Solar function?

During daylight,solar energy is used to supplement usage from your utility company and charge the batteries(Legion Solar). At night,batteries supplement your usage,enabling Legion Solar to completely offset all of your daytime and nighttime consumption. For use with connecting Micro-Inverter LS-260I,LS-260IG3,and SolarRegulator in a string to form an array.
