

Does lomanco offer solar power vents?

Lomanco currently offers two solar power vents, the Omni Solar Vent(TM) and the Omni Solar Gable Vent. Lomanco solar vents are your attic's best choice for solar powered protection against heat and moisture from sun-up to sun-down. All Lomanco solar power vents utilize a 40 Watt solar panel is the largest standard solar panel offered on attic vents.

What is a Lomanco Lo-OmniRoll vent?

The Lomanco Lo-OmniRoll vent is an exhaust vent that helps rid your attic of damaging heat and moisture when properly installed and used in conjunction with intake vents. It is a compact 30 foot roll that is easy to handle.

What is a Lomanco Foundation Vent?

A Lomanco Foundation Vent is a vent with an 8" x 8 perma-coated aluminum screen that is designed for maximum venting capacity while providing maximum weather protection. This is referred to as the 'Lomanco Balance.' Most Lomanco Foundation Vents are available in the standard concrete block size--16" x 8.

What material are Lomanco vents made of?

The Lomanco vents are made of embossed aluminum for added strength, extended paint life, and blending appearance with shingles. The exclusive Lomanco design also prevents the problem of bird and animal infiltration while providing maximum attic exhaust air flow and weather protection.

Do Omni solar vents work automatically?

The Omni Solar Vent(TM) and Omni Solar Gable Vent will operate automatically when the solar panel is illuminated by sunlight. Register your Lomanco Powered Vent to ensure prompt warranty service if needed. Our solar products are eligible for a Federal Tax Credit.

Can LOMANCO roof vents be shipped?

All LOMANCO Roof Vents can be shipped to you at home. The most common feature for LOMANCO Roof Vents is uv resistant.
