

Did Lady Lorde lose weight?

While there's no doubt Lorde has indeed dropped pounds, it seems quite normal and it's not something she actively pursued. Weight loss and weight gain over a certain period of time are regarded as common weight fluctuations. Lorde's physique is no different in this regard. This is not the first time the singer has either gained or lost weight.

How many days a week does Lorde work out?

Lorde works out four or five days a week, spending most of her time on cardio and strength training exercises. After a long hiatus, Lorde is finally back and better than ever. Fans are soaking up the rays of the 24-year-old singer's brand new album, *Solar Power*.

Is Lorde's 'the path' a prequel to 'solar power'?

Elsewhere in the newsletter, Lorde shared a new music video for "The Path," which she described as a prequel to the "Solar Power" music video. Lorde is currently on tour in Europe, and will return to North America for U.S. dates in August.

Why is Lady Lorde so popular?

It's worth noting that Lorde is one of the youngest singers to ever achieve such rapid success, yet she's still smashing it on stage and growing in stardom. Her first single, *Royals*, was such a huge phenomenon that it went over almost instantly and turned into the reason fans loved her and were eager to listen more from her.

How much exercise does Jennifer Lorde do a day?

Lorde, 24, and her washboard abs brought the house down while performing on *Good Morning America*. The singer's matching pastel yellow crop top and pants set totally showed off her toned core. Lorde works out four or five days a week, spending most of her time on cardio and strength training exercises.

Is solar power 'one of those works that gets made between peaks'?
