

## Mini led solar power car warning light night security

Can a car alarm light flash all night?

You can blink all night after being sunny during the day. - The car anti-theft alarm light will flash at night, but will not flash during the day (with sufficient light). No matter you put the switch in "on" or "off", it can be charged by solar energy. - No wires needed.

How a vehicle anti-theft light can protect your property?

This vehicle anti-theft light product can protect your property from potential thieves at night. The children in the community also dared to approach the car with the alarm. The bright flashing LED lights emit red light, which simulates the use of expensive vehicle alarm systems, which will dispel the idea of thieves stealing your valuables.

Can a car simulator alarm light be used on rainy days?

When there is not enough light on rainy days, you can use the USB to charge. The LED will strobe slightly when charging, and stop strobing when fully charged. ?Anti-Theft?: This car simulator alarm light can scare off those with bad intentions and protect your property from potential thieves at night.

How to charge an alarm light with solar energy?

?With USB Charging Port?: This analog alarm light not only can be charged automatically with solar energy, but also has a USB charging port. When there is not enough light on rainy days, you can use the USB to charge. The LED will strobe slightly when charging, and stop strobing when fully charged.

How does a car simulator alarm light work?

The LED will strobe slightly when charging, and stop strobing when fully charged. ?Anti-Theft?: This car simulator alarm light can scare off those with bad intentions and protect your property from potential thieves at night. Built-in light sensor, the microcomputer controller will automatically sense the intensity of light.

How to charge an alarm light?

(If you want it to blink during the day, you can cover the other end with dark paper). ?With USB Charging Port?: This analog alarm light not only can be charged automatically with solar energy, but also has a USB charging port. When there is not enough light on rainy days, you can use the USB to charge.
