

Why should you choose Missouri Wind and Solar?

Our mission is to help our customers live and thrive in an energy-independent environment. Through our high-quality, value-driven, US-sourced products, we give our customers the tools to achieve energy independence. Proudly designing and manufacturing wind turbines in Missouri since 2008.

What products does Missouri wind & solar offer?

Missouri Wind and Solar offers a wide range of affordable residential and commercial solar products including solar panels, solar heaters, solar lighting, and solar panel grid tie kits.

How is wind energy used in Missouri?

In Missouri, wind energy is most commonly used to produce electricity. Wind energy can also be harnessed to charge batteries, pump water, or historically to mill grains. Rock Port, Missouri was the first U.S. city to operate solely on wind energy.

What is the law on solar energy in Missouri?

As enacted in July 2013, the Missouri law does not specifically address solar energy systems. However, Spire (formerly Laclede Gas Company and Missouri Gas Energy) offers various rebates to residential customers for investing in energy efficient equipment and appliances.

Why is wind energy becoming popular in Missouri?

Missouri is experiencing a rise in wind energy due to its proximity to the U.S. Wind Corridor and major original equipment manufacturers (OEMs), which ensures efficient access to vendors and customers. The average Missouri farm could host 3 to 4 wind turbines and bring in additional income through land lease payments.

How many solar installation projects have you done in Southwest Missouri?

Sun Solar in Southwest Missouri has completed over 4,000 residential and commercial solar installation projects. Our goal has always been to bring market-leading solar solutions to this region. We understand your needs are unique, which is why we install a variety of solar panel systems.

See our wide range of grid tie inverters and DC to AC power inverters that convert the energy produced by your wind turbines or solar panels to residential AC. Menu. Missouri Wind and Solar - Wind Power Experts since 2008 +1 (417) ...
