

How many watts can a solar trailer run?

Operating as a standalone power solar supply, our deployable solar trailer systems autonomously run a load of up to 40 W continuously, 24 hour per day, 365 days per year. *They provide an uninterruptible backup power supply, the DPS-1200 runs a load of 160 W for 72 hours. *

Do all-in-one 12/24/48V solar power packages work?

All-in-One 12/24/48V Packages - DIY Solar Power - Made Easy! And they work! Instead of cutting/stripping/crimping wires for hours, and calculating fuse and wire gauge sizes, you can choose a package below and assemble it in minutes! That is awesome! What is the catch?

What is SunWize's mobile?

SunWize's Mobile solutions are stand-alone power systems using solar technology to provide continuous and reliable power to remote site loads.

Are the DIY solar panels UL certified?

The DIY battery community has used these units 24/7 for years, and they are now UL certified as of 2021. This means that the components inside the units are high quality. Connect some batteries and solar panels, change the settings, and you are done.

What is the minimum solar panel wattage required?

To offset the high idle consumption of all-in-one solar inverters, you will need at least 400 watts of solar panels attached to your system.

Does SunWize power and battery provide a trailer?

Please do note: SunWize Power and Battery does not provide the trailer itself. SunWize Power and Battery has and does provide a complete power system ready for trailer integration, suited and tailor made for our clients needs. Please contact a member of our sales team with any questions or to request more information!
