Where can I find powerlines & solar farms?

Powerlines and Solar Farms is now available from simMarket. Founder of MSFS Addons and a flight simulation enthusiast since the early days of FSX. Hoping to one day be on the left seat of a real airplane! Another omission in the default scenery gets tackled with an excellent freeware mod. Starting with Europe, but expanding in future updates.

Seems Solar Farms is still 0.5.0 in Manifest, but the Powerlines is now 0.9.7.3. Is that correct? Also, I am trying to figure out how to swap to the "no collision" version of the power lines. The instructions on .to do not match up to what I see in the package now, and there are no instructions on your site or in the Zip.

Hey guys. The more varied power line towers were ready before release but due to some performance concerns were postponed to do some more testing. Mamu's Powerlines & Solar farms will still be a valid and great add-on for MSFS2024, but first the issue of not working powerline exclusion has to be fixed.

Orbx has just released MSFS Global Powerlines, a new add-on for Microsoft Flight Simulator 2020 and 2024 that replaces the simulator's default power tower models with handcrafted 3D assets developed by Dmytro Krykunov--the indie creator behind HD Global Trees--this package aims to offer more realistic power infrastructure across the world, ...
