

# Multi function car jump starter solar power bank

Why should you buy a solar jump starter?

The best prevention of battery power depletion. Complete kit with all necessary cables to jump-start your battery and no additional wiring needed. Much cheaper than electric-powered jump starters. Now you have it, all the life-saving, money-saving, and time-saving solar jump starters.

How do solar jump starters work?

You see, regular electric-powered jump starters are designed to do just that: jump-starts your battery. But a solar jump starter can be used in a myriad of ways. This one comes with two cables: 1) alligator/crocodile clips so you can connect it to your battery nodes.

Can a solar jumper charge a car battery?

You have two options: Buy a new expensive car battery. Turbo-charge your battery with a solar jumper. This solar jumper works by being an "add-on" to your car battery. All you do is hook it up to the battery. It'll then keep your battery charged all the time. The empowered car battery can then power your car stereo or help charge your phone.

Can a multimeter be used as a solar jump starter?

You can easily attach your multimeter to the battery charging clip line if you want to measure output. The critical use as a solar jump starter couldn't be more comfortable because you can use the alligator cables to connect it directly to the solar panel and get your car started quickly.

Why do you need a GIARIDE solar jump starter?

Because you can jump-start your battery on the spot using solar energy. What's better is that you can attach the GIARIDE solar jump starter to the battery while driving or parking. Thus, you're charging your battery without doing anything out of the ordinary. You prevent the battery from dying in the first place.

Why do you need a jump starter?

If you park your car for a long time, this jump starter will also help the battery stay charged. Especially during the winter months. It needs very little sunlight to work, so even in the cloudy winter days, you can rely on it to keep your battery healthy. It doesn't have to be in your car. It may be your boat, snowmobile, or truck.
