

What is a Narada LiFePO4 battery?

The Narada LiFePO4 battery is a lithium ion battery that uses LiFePO4 technology. LiFePO4 has been considered as one of the most popular cathodes for lithium ion batteries used for electric vehicles (EVs) or large-scale energy storage systems.

Are Narada batteries good?

Narada Batteries are some of the finest solar batteries in the market and have been widely used for a variety of setups. Check out the range of Narada Batteries and give our battery specialist team a call today to get the very best setup for you.

What is Narada NPFC series?

Stock arriving end of October Narada NPFC series is a complete range of 48V LiFePO (Lithium Iron 4 phosphate) battery products, for a wide variety of applications, such as telecom base station, UPS, renewable energy system, etc., with advanced life, standard size, light weight and strong environmental adaptability.

Who is Narada battery?

Narada, established in 1994 in Hangzhou/China, has become one of the leading battery manufacturers and global battery suppliers of the world. The main business is the development, manufacturing, sales and service of communication backup, motive power and renewable energy storage batteries and accessories as also their system integration.
