

Does New Jersey offer solar incentives?

New Jersey solar incentive details New Jersey residents can take advantage of local financial incentives, including valuable tax exemptions. New Jersey offers a total sales tax exemption for all approved solar energy equipment, including solar panels, plus solar water heaters, solar pool heaters and more.

What is the New Jersey solar investment tax credit?

The New Jersey Solar Investment Tax Credit (ITC) is a 30% tax credit on the total cost of your solar panel system for all New Jersey residents. It reduces what you owe in federal taxes and is typically worth several thousand dollars.

Are solar panels a good investment in New Jersey?

Solar panel systems in New Jersey are expensive, but incentives from the state and federal governments can help you reduce the upfront cost. Between the federal tax credit and other state-specific incentives, you can save thousands on solar panels, making them well worth the investment.

Does New Jersey have a solar energy credit program?

In fact, the program replaced New Jersey's now outdated SREC and TREC (Transitional Renewable Energy Certificate) programs. The SuSI program guarantees one energy credit for every 1,000 kWh (1 megawatt-hour/mWh) you generate with your solar panel system.

Does New Jersey offer solar rebates?

Some solar companies in New Jersey also offer rebates. Marisol in Perth Amboy got \$500 from SunPower when she installed a small system (you can get \$1,000 for systems over 10,000 kilowatts (kW)). NJ Clean Energy's Residential New Construction Program also offers rebates for solar panels, though the amount varies.

New Jersey solar incentive details
