

Are northern solar solar panels a good company?

Northern Solar fitted our solar panels in Oct 2022 and then a battery in March 2024. In both instances they were responsive and easy to interact with. The solar panels and battery are both working well and we were impressed with their professionalism. Would recommend. Date of experience: March 26, 2024

Does Northern Power install solar panels?

Northern Power installs solar panels, and after signing a contract in August to install them, I found out I had some critical structural repairs to do to my home before proceeding. I wrote to Northern Power and asked to cancel the contract within two days of signing it, which was well within the 10 day grace period to cancel with no penalty.

Is Northern Power a scam?

Northern power is Fraudulent and has a shitty customer service . Northern power is more like a organization who does not uphold their side of the agreement and i have been a victim recently , Since December 20 2024 when they claimed their solar installation is complete , The installation has not worked for one day .

When did northern solar install my solar panels & battery?

Date of experience: April 10, 2024 Northern Solar fitted our solar panels in Oct 2022 and then a battery in March 2024. In both instances they were responsive and easy to interact with. The solar panels and battery are both working well and we were impressed with their professionalism.

Should I avoid northern PWR?

Avoid Northern PWR at all costs (previously known as Fluent Power). Date of experience: January 09, 2025 Northern Power installs solar panels, and after signing a contract in August to install them, I found out I had some critical structural repairs to do to my home before proceeding.

Who is Northern Powergrid?

Date of experience: June 14, 2023 Northern Powergrid is a privatised utility company who excel at telling their customers what they can't do for them (read their website). I and 93 other customers have experienced 7 power cuts in 8 days without a resolution. They just replace the substation fuse and do no investigation of the fault.
