

How much electricity can a solar system produce in Nova Scotia?

According to data from Natural Resources Canada, the average solar system in Nova Scotia can produce 1090kWh of electricity per kW of solar panels per year. Here is how much an average solar system can produce each month, as well as the solar irradiance potential map for Nova Scotia:

What is Nova Scotia's solar energy program?

This program creates the opportunity to buy solar energy from a community provider instead," said Tory Rushton, Minister of Natural Resources and Renewables. "This is just one of the many changes we're making to give Nova Scotians clean, reliable power at affordable rates, while helping us reach our climate change goals."

Is Nova Scotia a good province for solar?

Nova Scotia is one of the better provinces for solar with respect to electricity prices - higher prices mean higher savings potential. Based on a monthly usage of 1,000kWh, the average total cost of electricity in Nova Scotia is \$0.183/kWh (this number includes both fixed and variable costs).

How does solar work in Nova Scotia?

Solar photovoltaic systems convert the sun's energy into electricity, even on cloudy days, providing a sustainable power source for your home. 2. What financing options are available for solar installation in Nova Scotia? The Government of Nova Scotia provides clean energy financing through programs like Property Assessed Clean Energy (PACE).

Does Nova Scotia offer solar financing?

The Government of Nova Scotia provides clean energy financing through programs like Property Assessed Clean Energy (PACE). This initiative offers interest-free loans to install eligible solar systems. Additionally, Nova Scotia Power and local solar companies may offer their own financing plans to help homeowners go solar. 3.

Does Nova Scotia Power support solar?

Nova Scotia Power supports many solar customers (and more every day!) who are connected to the energy grid. In the long run, installing your own home solar system is a money-saving option, saving the average Nova Scotian \$1,300 per year.
