

Who is Pacific power source?

Founded in 1971, Pacific Power Source (PPS) is an industry leading manufacturer of AC and DC power test solutions. Our reputation as a market and technology leader stems from our best-in-class products, commitment to R&D investments, and exceptional worldwide customer support.

Who is eligible for the Oregon community solar program?

Establish your eligibility Oregon customers of Pacific Power, Portland General Electric and Idaho Power are eligible to participate in the Oregon Community Solar Program. You can participate if you are a resident (whether you own, rent or live in a single-family, multifamily or manufactured home) or a business (whether you own or rent your space).

Which linear AC power source is best for PV micro-inverters?

With power levels typically below 500W, the Pacific Power Source LMX series of four quadrant capable linear AC power sources is perfect for testing micro inverters. As the linear LMX AC power source is able to source and sink AC power, it can be used to test PV micro-inverters without the need for additional AC loads in the setup.

What is AC grid simulation for PV inverters?

Since PV inverters generate AC power, the AC Power Source used to simulate the AC grid must be able to absorb this power and return it to the grid. The AZX series seamlessly transitions between source and sink mode and meets all requirements for AC Grid Simulation for the PV inverter type test and production regulatory test standards.

What is the Oregon community solar program?

The Oregon Community Solar program gives you a new option to receive utility bill credits in exchange for buying or leasing part of a community solar project.

What is a community solar project?

Community solar projects are large solar systems and can be located on buildings - like businesses, government buildings, schools or churches - or they can be free-standing solar arrays in an undeveloped area.

Fully regenerative AC & DC power sources like Pacific Power's AZX Series offer AC, DC and AC+DC output modes as well as energy recovery to the utility. This makes these ...

POWER CUSTOMERS Understanding your Utility Bill with Community Solar Overview Every month, solar power is generated by the project connected to your solar ...

The Pacific Power Solar Incentive program offers a \$600 per project. The system must meet all applicable codes and additional site criteria such as total solar resource fractions, be grid-tied, and be installed by an ...

Pacific Power Customer Push Back Against Rate Hike. Many Pacific Power customers have expressed dismay about numerous rate hikes in recent years. And the ...

Pacific Power's Blue Sky® program empowers people like you to match all or part of their electricity use with renewable energy resources like wind and solar from the West. Start positively impacting the environment and support renewable ...

Solar energy is an option. Subscribe to a community solar project and get monthly credits on your electric bill for helping create a more sustainable energy future. The Oregon ...

If you've been considering adding a battery backup to your solar system, now might be the perfect time--thanks to the Pacific Power Wattsmart Battery Program. The utility has ...

We developed our one-of-a-kind marketplace with funding from the U.S. Department of Energy to make clean home energy solutions affordable and accessible to all. Read reviews for Pacific Power Renewables, a Solar PV ...

Blue Sky Block purchases support wind (30%) and solar (70%) energy from the Western region and help develop community-based small-scale renewable energy projects. ...

Bill with Community Solar Overview Every month, solar power is generated by the project connected to your solar subscription. The amount of solar ... All fees paid on a \$/kW ...

EV Instant Rebate Program: This program can provide up to \$9,000 off a new EV lease for low-income drivers.; EV tax exemption: Electric passenger vehicles are exempt from state motor vehicle sales and use taxes (up to ...

Pacific Power Source provides ideal AC / DC power source and load solutions for testing solar PV/grid-tied inverters, micro-grids, energy storage systems, and loads, worldwide. The Regenerative Grid Simulators and Regenerative ...

Bring more renewable energy to our region for as little as \$1.95 per month. Calculate your impact » See the Blue Sky® customers are making in our communities! Support ...

We specialize in the design, installation, and maintenance of solar and battery systems. With knowledgeable, personalized service, we ensure that each electrification project meets your ...

98 Adjustment Associated with the Pacific Northwest Electric Power Planning and Conservation Act; 101 Municipal Exaction Adjustment; 103 Multnomah County Business ...

Stored solar power can keep lighting, refrigeration, medical equipment, well pumps or other essentials operating during an outage. ... Pacific Power: \$1,050 per home: \$450/kWh, \$5,400 maximum per home: Minimum solar system ...

Power facilities owned by Pacific Power generated 45,752,727 megawatt hours and an additional 17,677,912 megawatt hours were purchased by way of the wholesale ...

Support renewable energy in fixed price, 100-kilowatt-hour blocks of 100% Western region wind (30%) and solar (70%) energy and help fund new, community-based projects in ...

Thinking of installing solar panels or other renewable power systems? Make us your first stop. Get connected. Wattsmart Batteries. If you have onsite solar generation, you can earn incentives for allowing us to ...

Additional considerations. Energy source: Portable generators can run on natural gas, propane, gasoline and diesel fuel each case, there are emissions created when the generator is in use. Portable power stations can ...
