

What is the Patriot Power Generator 1800?

The Patriot Power Generator 1800 is a solar power generator that I've often used for power outages in my home. It comes with 2 charging options -- solar panel charging and AC outlet charging (the outlets on the main power grid). This product is a continuation from the Patriot 1500, which famously was recalled because it kept catching fire.

How many watts is a patriot power generator?

The Patriot 1800 has an output capability of 1800W, as the name suggests. This means it can power devices and appliances that require up to 1800 watts of power. The Patriot has a solar input potential of 240 watts, which is less than some rival solar generators.

Does 4Patriots currently sell a solar generator?

While 4Patriots used to sell a solar generator called the Patriot Power 1500, it was recalled due to being a fire hazard. Currently, they offer the Patriot Power 1800, which is a gas-powered generator.

Is the Patriot Power 1800 a good solar generator?

If you're looking for a solar generator to run large and small appliances at home, in your RV, or elsewhere, the Patriot Power 1800 is not the best pick. Its specifications show that it has a 'maximum of 20A @12V AC charging current from AC or DC circuitry'.

Is Patriot a gas generator?
