

Why should you choose a solar company in Perth?

Perth, the sunniest capital city in Australia, boasts over 8 hours of sunshine per day. This abundant sunlight makes it an ideal location for solar power installations. As the demand for renewable energy sources grows, numerous Solar Companies Perth offer best services to cater to this need.

How much does solar cost in Perth?

The cost of installing solar panels in Perth averages around \$4,710 for a typical 6kW system after government rebates. Prices can range from \$3,120 for smaller systems to \$7,930 for larger ones, depending on the system size and quality. Is it worth getting solar in Perth? Yes, getting solar in Perth is highly worthwhile.

Who is the best solar company in Perth?

SunSolar Energy is the best solar company in Perth, providing smart, sustainable energy solutions since the start. Our expertise in solar installation in Perth sets us apart, with a dedicated team of CEC-accredited installers and qualified engineers who ensure every project meets the highest industry standards.

Why should you install solar panels in Perth?

**Lower Energy Bills:** Installing solar panels can dramatically reduce your electricity costs. Most Perth households recover their investment within 3-5 years, with long-term savings for decades. At Aus Energy Solar, we ensure you take full advantage of these programs, making your switch to renewable energy smooth and affordable.

How many solar panels can I install in Perth?

Most Perth homes are suitable for solar panel installation, with 6.6kW systems (16-20 panels) being the most popular size. Perth's abundant sunshine (5.3-5.8 peak hours daily) makes it ideal for solar energy production. This range is according to PV Watts (5.8 hours) & Australia's own Bureau of Meteorology (5.3 hours).
