

How does a solar power bank work?

This power bank ensures your devices stay powered wherever you are. Super-Fast Charging: With upgraded QC 3.0 technology, this solar power bank delivers fast charging at 5V/3A--reaching 65% battery in just 30 minutes. It features one USB-C port and two USB-A ports, enabling simultaneous charging for three devices.

How many devices can a solar power bank charge?

The USB C port can be used as both input and output, and with two USB A ports, the solar charger can charge up to three devices simultaneously. Fully charge the solar power bank via its high-performance solar panels while traveling away from electricity, or via wall outlet on a daily basis.

Is the power bank a good solar charger?

Some say that the power bank is "a bit bigger than expected" and a bit heavier, so that may be something to keep in mind, especially if you're tight on space or travelling. Shoppers rave that the Power Bank Solar Charger is rugged, powerful and does an excellent job of charging their devices over long periods of time.

What devices can be charged with a solar phone charger?

The ERRBBIC solar phone charger is compatible with a wide range of devices, including iPhones, iPads, iPods, Samsung Galaxy devices, LG G series, Nexus, HTC, GoPro cameras, GPS devices, and more. It features dual USB ports, allowing you to charge two devices simultaneously. The solar power bank can be recharged via solar panels or an outlet.

How many devices can a solar charger charge?

Multiple Outputs & 3A Fast Charging: The solar charger can charge three devices simultaneously, making it convenient to share juice with your friends while on the go. It can charge an iPhone 11 Pro to 50% within 30 mins.

What is a solar charger?

Outdoor Essential: The solar charger is made of highly durable material and constructed to protect it from drops, dust and moisture. It's the go-to rugged power for your outdoor adventures.
