

How much battery can a solarbox charge?

The solarbox can charge up to 100 phones a day, offering a 20% battery boost in 10 minutes. Since launch, about six people per hour use the booth, according to the founder. Running out of battery is a perennial problem for smartphone users as they become ever more powerful without an equivalent technology leap in battery life.

Can you use a phone box as a solar-powered charging station?

Disused phone boxes in London are being put to a novel use - as solar-powered charging stations for mobile phones. The first of six boxes was unveiled on Tottenham Court Road this week. The service is free to use although users will be shown adverts as they wait for their phone to charge.
