

What is a foldable solar panel?

Foldable Solar Panels are lightweight,durable,and highly portable. Individual solar modules are mounted to weather-resistant fabric that quickly folds for storage and unfolds for use. Unmatched durability allows for use in harsh environments and a panel that works even after a portion is damaged.

Are foldable solar panels weatherproof?

Foldable Solar Panels keep you connected,power your outdoor life,and help you get more out of your adventures. Foldable Solar Panels are designed for regular outdoor use but not permanent outdoor installations. The panels are not weatherproofand should not be left wet,if at all possible.

Are PowerFilm panels good for bug out bags?

“PowerFilm panels are ideal for bug out bagsand other outdoor activities due to their being exceptionally portable,lightweight,durable,and efficient. Their flexibility makes for a variety of possibilities in terms of how they can be set up,throw it on a tent,hang it from a tree,backpack,or just roll it out on the ground.
