

Is power grid a grind?

Power Grid sounds like a grind, but it's an intense strategy and economics game that has kept me enthralled with every play. The first thing you'll notice are the giant maps printed on each side of the board of the U.S. and Germany: There are lots of dark cities on those maps and it's your job to get them power using Power Plants and Resources.

How does power grid work?

The objective of Power Grid is to supply the most cities with power when someone's network gains a predetermined size. In this edition, players mark pre-existing routes between cities for connections, and then bid against each other to purchase the power plants that they use to power their cities.

How long does power grid take to play?

Power Grid can be played in around two hours and is suitable for up to six players. Who's it best suited for? This is a game that is purely based on strategy and so, it's suited to those who like to sit down and focus on a game for a period of time with some seriousness of thought going down.

Is power grid a good game?

Power grid appears to be an enjoyable and interesting game that keeps players involved and active throughout. The simple phased set up makes it feel as though it has a real structure and as it has an educational aspect to it, children can also learn from the game.

What is solo play & how does it work?

The game play was designed to challenge an experienced Power Grid player. The Solo Play rules have been play-tested on all expansions boards prior to China/Korea and also the expansion power plants. This print and play expansion has 12 new power plants, including solar and hydroelectric. Includes rules for the USA, Germany, and Benelux maps.

Is power grid suitable for a 13 year old?

The board game Power Grid is a strategy game that's suitable for players over the age of 13. It's a game that is based on the German game, Funkenschlag which was created by Friedemann Friese and first released in 2004. Power Grid can be played in around two hours and is suitable for up to six players. Who's it best suited for?
