

What is community solar?

Community solar provides you with the benefits of clean energy without the hassle of traditional solar panel installation. We connect your utility account to a solar project in your electric utility region in a few, simple steps. You join a solar project in your community, which pumps clean energy into the local power grid.

What are the best community solar options?

Over the last month we interviewed renewable energy experts and spent dozens of hours researching the best community solar options on the market. Our pick for the best way to get signed up for community solar is Arcadia, a company that makes signing up for a local solar project feel as easy as ordering takeout.

Is community solar available in all states?

Community solar isn't yet available in every state, and you likely won't be able to take advantage of most incentives as a subscriber. Community solar is a unique type of solar project that shares energy with thousands of people on the electric grid through a central solar power plant.

Why should you choose community solar?

Save money. Defend the environment. Protect our future. Community solar provides you with the benefits of clean energy without the hassle of traditional solar panel installation. We connect your utility account to a solar project in your electric utility region in a few, simple steps.

Does Arcadia offer community solar?

Arcadia offers community solar in nine states, with more to come. The company pairs you with a local solar project, an easy way to help nudge your community toward more renewable power. Best of all, there aren't any fees or contracts. We'll explain why we like Arcadia and don't like other "green energy" providers like CleanChoice below.

Where can I buy community solar?

Solar United Neighbors has a deeper guide for how to shop for community solar. With that in mind, check out Solar United Neighbors' search tool. You can see the offerings from major community solar providers in each area, including Nexamp, CleanChoice, Neighborhood Sun, and Arcadia, among others. What's the benefit of community solar for me?
