

Who is Solar Power NI?

Solar Power NI is the leading installer of solar panels and myenergi eco-home products in Northern Ireland. Catering to the unique needs of businesses, new home developers, commercial properties and the agricultural sector. Powering Northern Ireland sustainably, one installation at a time.

How many homes in Northern Ireland have solar panels?

There are 27,676 homes with solar panels in Northern Ireland, according to the Microgeneration Certification Scheme (MCS). And solar power is only getting more popular. The Northern Irish government's Energy in Northern Ireland 2020 report shows that the country's solar capacity has significantly increased every year since 2008.

Do solar panels work in Northern Ireland?

Yes, solar panels absolutely work in Northern Irish weather. In fact, the country has good conditions for solar panels. The main danger to panels' efficiency is overheating, which is unlikely in Northern Ireland. And they work best in cooler climates, which is perfect. Don't worry if it's cloudy, either.

Are there government grants for solar panels in Northern Ireland?

In 2008, there were just seven solar panel sites in the country, so the rise of solar power has clearly been rapid. Unfortunately, there are currently no government grants in Northern Ireland for solar panels. However, make sure to contact NI Energy Advice to see if there are any grants in your area for communities that want to go solar.

Is solar power becoming more popular in Northern Ireland?

And solar power is only getting more popular. The Northern Irish government's Energy in Northern Ireland 2020 report shows that the country's solar capacity has significantly increased every year since 2008. In 2008, there were just seven solar panel sites in the country, so the rise of solar power has clearly been rapid.
