

Is Powersmart a good solar company to choose?

Based on this review, Powersmart is considered a good solar company. The customer appreciated the clear explanation from the consultant, the smooth installation process, and the positive impact on their electricity bill.

Who is PowerSmart Solar?

Powersmart Solar designs and installs solar panels in Australia, New Zealand and beyond. Features of its systems include a five-year warranty in addition to that provided by the manufacturer. Extensive after-sales support is also provided by the company.

Is PowerSmart Solutions a good company?

PowerSmart Solutions is a good company according to this review. The customer had a great experience with Jesse and Luke who did a fantastic job installing the solar panels and providing knowledge throughout the process. While the pricing seemed higher, it was on par with other companies when all factors were considered.

Does PowerSmart Solar offer a warranty?

Features of its systems include a five-year warranty in addition to that provided by the manufacturer. Extensive after-sales support is also provided by the company. Powersmart Solar has more than ten years of experience in designing, installing and commissioning renewable energy systems.

What do you think about Power Smart Solutions?

I couldn't recommend Powersmart enough. They were always on time, had good communication, and explained the solar solution well. The installers were very professional, and the installation was smooth. We've been generating above expectations for the past 2 months, so I'm very happy with their service.

Does PowerSmart Solar provide after-sales support?

Extensive after-sales support is also provided by the company. Powersmart Solar has more than ten years of experience in designing, installing and commissioning renewable energy systems. It therefore strives to provide the highest quality solar PV technology.
