How to choose a solar installer in Australia?

In Australia, solar installers should be accredited by the Clean Energy Council (CEC). Experience matters, too. An installer with a history in the Sydney area will understand local regulations and climate nuances. Additionally, look into the warranty they provide, not just for the panels but also for their workmanship.

Will solar power help home and business owners in NSW?

From November 1 2024, NSW will be introducing an initiative to help home and business owners afford solar battery systems. In Sydney, solar power is helping thousands of families to reduce their energy bills and to have a cleaner and healthier lifestyle.
