

What is the Power Bank 2000?

The Power Bank 2000 is a powerful and adaptable generator designed to power almost any device in your home. It's fume-free and extremely user-friendly - if you can plug an appliance into your wall, you can plug it into the Power Bank 2000.

How many devices can a power bank 2000 power?

$1920\text{Wh} \times 0.85 / 300\text{W} = 5.4\text{hrs}$ (roughly). You don't have to worry about running out of ports. The Power Bank 2000 has room to power up to 16 devices simultaneously. The Power Bank 2000 is made to stand the test of time with Grade A Lithium Iron Phosphate Cells, which are so efficient only losing less than 1% charge per year.

Why should you consider a solar power bank?

A solar power bank, like the one included in Project Solar's Off-Grid Battery Kit, offers several benefits. It harnesses the power of the sun for free, making it a cost-effective and eco-friendly solution for your power needs. Additionally, it keeps your lights on for days, providing peace of mind and security during power outages.

Can the power bank 2000 run older air conditioning units?

The Power Bank 2000 cannot run older air conditioning units as it may not have the capacity. However, it can power almost any other device in your home with ease. Our battery is extremely user-friendly - if you can plug an appliance into your wall, you can plug it into the Power Bank 2000.

Is Project Solar a reliable company?

Project Solar offers more features with their power stations and at a price that beats the competition. I have found their technical support team to be easily accessible and always helpful, making them a reliable choice. What's in The Box?
