

Who is solar power Indonesia?

Solar Power Indonesia partners with leading industrial customers and international consultants to deploy solar power systems that are reliable, efficient, and sustainable. We specialise in standalone and high reliability back-up power systems than integrate energy generation and storage solutions matched to your project requirements.

Why should you choose solar power Indonesia?

Living in a remote area, we often faced power outages. Since installing solar panels from Solar Power Indonesia, our electricity supply has been stable and reliable. The customer service was excellent, and the installation team handled everything efficiently. Solar Power Indonesia provided exceptional service from start to finish.

What is PLN Nusantara Solar Energi (NSSE)?

The construction of this installation is divided into two phases: a 10 MW capacity is being built through the synergy of subsidiaries under PLN Nusantara Power, while the remaining 40 MW is being developed by PT Nusantara Sembcorp Solar Energi (NSSE)--a Joint Venture Company owned by PLN Nusantara Renewables and SembCorp Utilities Pte. Ltd.

SMSolar (PT Surya Mitra Sentral) is a solar power (PLTS) developer based in Bogor, Indonesia. We aim to provide affordable, efficient, sustainable, and long-term solar energy solutions for residential, commercial, and industrial. ...
