

What is a Texas solar buyback plan?

A Texas solar buyback plan, also known as Texas Net Metering, is a program that pays you for the excess solar power you generate from the solar panels on your roof. The electric company credits your account for the power your panels produce.

Is Pulse Power Solar Buyback available in Texas?

Unfortunately, Pulse Power Solar Buyback is no longer available in Texas. Oncor, the delivery company in North Texas and parts of Central and West Texas, no longer offers net metering programs as they are not a retail electricity provider.

Did Pulse Power offer a solar buyback plan?

Pulse Power used to offer the most popular solar buyback plan around. They had a "bundled" energy rate of power and delivery, and they purchased solar power back at the same rate, including delivery.

Can you buy back solar in Texas?

Most customers remain connected to the grid and sign up for a traditional energy plan as a backup power source. If you have solar panels installed on your property, Texas solar buyback plans can help you offset the cost of your solar system and provide reliable and affordable electricity from the grid. Does Texas buy back solar plans?

Does Texas have a solar buyback or net metering plan?

Texas has dozens of electricity providers, but few of them have solar buyback or net metering plans. As of 2024, the following electricity companies provide solar buyback plans in Texas: Shine Plans: Real-time wholesale market price published by ERCOT, up to a maximum rate of 25 ¢/kWh.
