

Is purelight power a good company?

Purelight Power offers solar power solutions and is in business for over 5 years. Negative aspects: One customer complained about poor customer service, delays in work completion, and lack of response to refund requests. Another complaint mentioned a door-to-door solicitor ignoring a "No soliciting" sign and causing disturbance. Positive Reviews:

Is Purelight a good solar system provider?

Purelight is always friendly and the system seems to work well. Their team has been helpful and responsive, making the process of switching to solar easier than imagined. If you're considering it, now is the time to sign up and get rid of your power bills with Purelight.

How much does purelight solar cost?

According to Find Energy, the US average solar cost is \$17,903 based on a \$3.58 price per watt. Purelight's price range is pretty on par with national averages, and we appreciate the company's transparency about how location affects costs. Purelight offers price matching if you get a lower quote from another company for the same quality.

Is purelight power a fake company?

I researched Purelight Power for my house and read many reviews. On this site and others, it appears that the competition is making up fake reviews against this company. The competition must be mad that Purelight is now the 5th largest solar company in America and the largest solar company in Montana.

Does purelight power have an app?

Like many other solar companies, Purelight Power customers can monitor their system's production through the inverter manufacturer's app. Hoymiles has a 2.3-star rating on the App Store and 2.9 on Google Play. The Tesla app gets a 3.8-star rating on the App Store and on Google Play. Does Purelight Power use subcontractors?

Where is purelight power located?

It offers equipment from Hyundai Heavy Industries, Yingli, Tesla and others. The company is headquartered in Medford, Oregon. Services areas extend across parts of the West and Midwest. How do I know I can trust these reviews about Purelight Power?
